7:00-8:00—West Coast Swing Level II - Choreography Class! Have fun building on the fundamentals you learned in WCS Level I. This series bridges the gap from beginner to intermediate dancer. This is a repeating 4 week series which begins the 1st Wednesday of each month and progresses weekly with choreography to help you get more comfortable with the dancing. You should be familiar with the basics—we'll learn cool variations with some technique too that make it all work. No partner is required.

8:00-9:00—West Coast Swing Level III - Drop in class. For those who have developed good basic skills and are comfortable with the dance, this class offers different patterns and variations on the basics and adds in the techniques that make them work well for social dancing. We work on action/reaction, lead and follow, musicality, dance flow and lots more here. MUST be comfortable with your 6s and 8s for this one. No partner is required.
